What we do

Maytech's secure cloud data transfer and storage platform helps companies centralise and control file sharing anywhere.

How we do it

Products feature enhanced security and compliance, with full audit trails and are customisable for manual or automated workflows.

Why choose us?

ISO 27001 certified, trusted by leading global companies and our dedicated team will work with you and support you 24/7.

Maytech's Solutions

Professionalise your file sharing

PCI Compliant data hosting and transfers

Collect files and associated metadata from your customers

Transfer big data globally

Secure global data transfer and storage

Reliable file transfer to and from China

Key features

Security

End to end encryption. Data is encrypted in transit (HTTPS, SFTP or FTPS) and at rest using AES-256 bit encryption. Advanced PGP module also available

Compliance

Data residency, Pan Government Accredited, G-Cloud supplier, EU data protection, PCI-DSS compliant, HIPAA compliant and ISO 27001 certified

Control

Granular administrative controls over access and permissions. Full audit trail and reporting

Ownership

Retain your corporate identity. No third party branding

Integration

Instant provisioning, desktop apps, Outlook integration, public API

Ease of use

Designed for extreme ease of use and highest user adoption

Support

High availability with 99.95% SLA, 24/7 phone and email support

Why would I partner with Maytech?

1. Our products fulfil a need and are easy to sell
2. Net customer renewal value +100%
3. IT spending on cloud file sharing services is surging

How does it work?

1. We provide you access to the Maytech partner platform
2. We assist with your web look and feel and provide product branding and literature
3. We give you access to our dedicated partner marketing repository

What do our existing partners say about us?

"Maytech and Pro2col partnered in 2012 and it has been a great relationship ever since. Maytech are very supportive and provide us with everything we need to sell their fantastic product. I would certainly recommend joining the Partner On Board programme."

James Lewis, Managing Director | Pro2col – A Maytech Partner
